Bluebell

BN352 1 x 4 Distribution Amplifier

- 1 input 4 outputs
- 12V DC input 4-pin XLR power connection
- LED for input signal loss
- 4 fully reclocked SDI outputs
- Supports 12G-SDI, 6G-SDI, 3G-SDI, HD-SDI, SD-SDI, MADI, ASI
- Reclocker automatically bypasses other data rates
- Compact and robust enclosure suitable for OB applications

Blue Nano BN352 is an ultra-compact 1x4 12G-SDI Distribution Amplifier which offers four fully reclocked SDI outputs, automatic input signal detection, cable equalization, and comes in a rugged enclosure. it features an LED for input signal loss, and supports 12G-SDI, 6G-SDI, 3G-SDI, HD-SDI, SD-SDI, MADI, ASI inputs.
